PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience developing backend services, RESTful APIs and full-stack web applications. Proficient in Node.js, Express.js, NestJS, React.js, JavaScript and TypeScript, with hands-on experience in PostgreSQL, MongoDB, Supabase and Redis. Experienced in API development, database integration, authentication, application workflows, asynchronous processing and debugging. Focused on building maintainable backend systems and reliable web applications.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap
- **Backend:** Node.js, Express.js, NestJS, REST APIs, JWT Authentication, Middleware
- **Databases:** PostgreSQL, Supabase, MongoDB (Mongoose), MySQL, Query Optimization, RLS
- **Caching & Realtime:** Redis, WebSockets
- **Tools & Cloud:** Git, Docker, CI/CD, Postman, VS Code, Cursor, AWS S3

PROFESSIONAL EXPERIENCE

TechMirus | Software Engineer | Apr 2026 – Present

- Developing full-stack features for SiteSync, a construction project management application using React.js and TypeScript.
- Building backend integrations using Supabase services, PostgreSQL queries and Supabase Edge Functions.
- Implementing application workflows across Schedule, Change Orders, Submittals, RFIs, Notifications and Drawing Management modules.
- Implementing authentication, Row Level Security (RLS) policies and database migrations to support secure data access.
- Debugging frontend and backend issues, validating functionality with Vitest and collaborating through Git-based workflows.

String Metaverse Limited | Full Stack Developer | Jan 2025 – Mar 2026

- Developed and maintained 50+ REST API endpoints across projects using Node.js and NestJS.
- Implemented NestJS modules, controllers, services, authentication guards and middleware to structure server-side business logic.
- Integrated PostgreSQL and MongoDB for application data, supporting partner payout and financial transaction workflows.
- Implemented Redis caching to support frequently accessed application data.
- Developed and maintained lead-to-disbursement dashboard functionality for business monitoring.
- Contributed to credit-risk analysis and operational forecasting using product, risk and collections datasets.

GlobalLogic Technologies Pvt. Ltd. | Analyst | Sep 2023 – Jan 2025

- Developed and maintained responsive web interfaces using React.js, JavaScript and Bootstrap.
- Implemented frontend features for data tracking, reporting and business monitoring workflows.
- Supported operational automation initiatives and real-time KPI updates for business reporting.
- Developed reporting features for risk analysis and partner-payment tracking.
- Collaborated with cross-functional teams to troubleshoot application issues and deliver maintainable software features.

KEY PROJECTS

SiteSync – Construction Project Management Application | *React.js, TypeScript, Supabase, PostgreSQL, Vitest*

- Contributed full-stack features to a construction project management platform, including frontend workflows and backend integrations.
- Implemented secure data access using Supabase authentication, RLS policies, database migrations and Edge Functions.

Web3 Automated Market Making & DEX Analytics System | *Node.js, MongoDB, Solana Web3.js, Raydium SDK, Redis*

- Developed Node.js backend workflows to monitor token prices and execute token swaps through Raydium liquidity pools on Solana.
- Integrated blockchain interactions using Solana Web3.js and Raydium SDK.
- Implemented asynchronous swap queue processing with retry handling and exponential backoff.
- Implemented JWT authentication and role-based access control.

Full-Stack Application with Telegram Bot Integration | *Node.js, Express.js, MongoDB, Telegram API*

- Built secure REST APIs for user authentication and integrated Telegram Bot notifications for real-time user updates.

EDUCATION

Master of Computer Applications (MCA) | Manpower Development College (Osmania University) | Aug 2022 – Oct 2024 | CGPA: 7.65

Bachelor of Science (MPCS) | Vivekananda Govt Degree College (Osmania University) | Jun 2019 – Nov 2021 | 74.40%
